

# EcoLine Scope

*new low cost microscope by Motic*

# ecoline Scope

## Quality microscopes at competitive prices

The Eco-Line Scope ticks all the right features boxes when choosing a microscope. Available as a choice of Monocular or Binocular models and with two ranges of DIN standard objectives, the Eco-Line Scope provides a solution for most Educational microscopy needs and beyond. The standard objectives are Achromatic corrected, but for those who wish to have an even flatter field of view, the Eco-Mono Plan and Eco-Bino Plan offers EL-Plan objectives. With a built-in 1.25NA substage condenser, the halogen illumination system is powerful enough so that the 100X objective is provided as a standard in the reversed-mounted quadruple nosepiece.

	Eco-Mono	Eco-Bino	Eco-Mono Plan	Eco-Bino Plan
Monocular Head 45 degrees inclined 360 degree rotating	Yes	NA	Yes	NA
Siedentopf Binocular Head 45 degrees includes 360 degrees rotating	NA	Yes	NA	Yes
WF10X/18mm Eyepiece	Yes	Yes (x2)	Yes	Yes (x2)
Reversed Mounted Quadruple Revolving Nosepiece	Yes			
Achromatic 4x, 10x, 40x (spring), 100x (spring, oil)	Yes		NA	
EL-Plan 4x, 10x, 40x (spring), 100x (spring, oil)	NA		Yes	
Built-in Mechanical Stage with Coaxial Controls	Yes			
Coaxial Coarse / Fine Focusing controls	Yes			
Rack & Pinion mounted 1.25NA Abbe Condenser with filter holder	Yes			
20W Halogen / LED illumination with dimming control	Yes			
Switching Power Supply (external transformer)	Yes			

### Features:

As this microscope was designed specifically for tenders and bids, the specifications speak for themselves.
